Multimedia Technologies and Web Design

Take Home Assignment

Task 1 - Medium Blog Article

1. Select any topic that you have learned in the classroom.

2. Write an informative and well-structured article about the selected topic.

3. Publish the article on **Medium**.

Task 2 - Portfolio Website Development

1. Develop a personal portfolio website using **HTML**, **CSS**, and **JavaScript**.

2. The website should be fully **responsive** and accessible on desktop, tablet, and mobile devices.

3. Minimum Page Requirements

- **Home Page** - Introduce yourself and showcase your skills.

- **Blog Page** - Include a clickable **link** to the published medium blog post.

- **Contact Page** -

   o Include a form with fields like name, email, subject, and message.

   o Implement form functionality using **JavaScript** (no backend required).

   o Display a message after submission (no actual email sending required).

Submission Guidelines

1. Create a **GitHub repository** and upload your website's code to the repository.

2. Create a **pdf file (.pdf)** that contains the **GitHub repository link**.

3. Place both your **website project folder** and **the pdf file** that contains the GitHub repository link in a single folder.

4. Rename the folder using your **index number**.

5. Compress the folder into a **ZIP file.**

6. The ZIP file must be submitted via Moodle on or before **15th August 2025 by 11:59 PM**.
